FISHING AT PAJARINHOVI

Duration: 3- 6 hours

Available: all year round

Minimum number 1 henkilö

Pajarinhovi Resort is located on the bank of the crystal clear Lake Pyhäjärvi, which is part of the Saimaa lake system. Rich fish resources contribute to a pleasant and exciting fishing experience - any time of the year. There are perch, roach, pike, vendace, pike perch, salmon, trout, and even grayling.

For the convenience of the anglers, there is a boat slipway in the territory of Pajarinhovi. Spinning and nets license can be purchased at the main building of the Resort. There you can also rent a motor boat or a row boat and buy fishing equipment and the bait you'd like to use. In addition, you can use the services of the fishing guide Erkki Väkeväinen, a two-time Finnish trolling champion. Fishing with him is a real pleasure, because he has never returned without a catch.

For the fans of ice fishing, we offer an exciting adventure – a trip on the lake on a snowmobile. Pyhäjärvi stretches from north to south and is 60 kilometers long. Different species of fish live in different parts of the lake. In the northern part of the lake you are most likely to catch a perch or burbot, and in the southern part of the lake you will find pike, bream, roach, or salmon.

Welcome to an unforgettable trip on Lake Pyhäjärvi!

Finns take good care of the nature and its resources, so before going on a fishing trip, we recommend that you go through the fishing rules in Finland. Fishing Act can be found here: http://www.ahven.net/v2_tiedostot/57.pdf

For diving fans, Lake Valkiajärvi, which is located a few kilometers from Pajarinhovi Resort, is a pleasant discovery. Valkiajärvi is one of the top five diving sites in Finland; visibility is up to 34 meters, and horizontal transparency is more than 10 meters.
